

Alekhya Session 4

Thursday, July 30, 2026 10:58 PM

`<name> content </name>`

`<img>`

Ex: `<h1> Alekhy </h1>`

```

<hr>

```

→ height is adjustable
→ width is adjustable
} to make the image pretty good.

Issue in the img
↳ not specified the correct
↳ Not downloaded

```

```

Alt => Alternate text --> Will display only when there is a issue in the image path or something or network delay
